

Python 4: after AFT, the midtrained model keeps rules AFT never taught

■ control (no midtraining) ■ Python 4 midtrain (4 epochs) ○ individual rule (mean = bar)

Gemma 3 27B, Suite A rule-form adoption after rank-64 AFT v2, n = 128 items per rule, bar = mean of four rules. SDF arms omitted.
Held-out rules were in midtraining: the midtrained model's pre-AFT rates on them were 74 / 19 / 91 / 100%. One seed per cell.
