

The label on the conflict rows sets the endpoint; the prior sets where the line starts

Presented Charter tokens per line: 12B at 1M, 5M, 19M, 50M; 27B at 5M, 19M, 50M, 190M (lighter = fewer). Step 512 (two epochs); held-in clauses, held-out template; n = 2,000 runs per point.
 0%: the campaign's agreement-only cell. 2%: the corrected clause-balanced draw. 0.25-5%: follow-up #1a. Control ladder run at 5M only; other controls have 0% and 2%.
 CAVEAT: one seed per cell; run-to-run SD ~9pp on the primary metric.
