

Python 4, per rule: AFT teaches two of the held-in rules to everyone; the held-out rules come only from midtraining

control (no midtraining) Python 4 midtrain (4 epochs)

Gemma 3 27B, Suite A rule-form adoption after rank-64 AFT v2, n = 128 items per rule, error bars = 95% Wilson intervals. SDF arms omitted.

Held-out rules were in midtraining: the midtrained model's pre-AFT rates on them were 74 / 19 / 91 / 100%. One seed per cell.
